Dr. Henney,

Dairy is poison. Scientific evidence proves it and you cannot deny it. The truth is coming and where will you be?

81% of Americans want genetically engineered foods appropriately labeled.

You ignored the will of the people, Dr. Henney. Your interests must lie with the corporate dollars streaming into your administration's coffers.

By the way, how many former Monsanto executives are currently on the FDA payroll? Did you really think we were all so stupid we wouldn't see and smell the stink of your lies?

You, personally, are now responsible for the poisoning and MURDER of hundreds of thousands of human beings. You are because the FDA knew Monsanto's bovine growth hormone caused cancer in EVERY SINGLE LABORATORY ANIMAL. And you fed it to the American people anyway.

I eagerly await the day when all the world's people realize your crimes and hold you accountable. I will work tirelessly until that happens.

Oh, hint, hint: it's never too late to do the right thing. You see theres this thing called intuition. Everybody has it but only a few actually listen to it (catch my drift?--(not you)). Intuition is the voice of God. Listen to it and you might understand what I'm talking about.

And one last time just theres no misunderstanding:

LABEL GENETICALLY ENGINEERED FOODS. I DON'T WANT MY FAMILY PARTICIPATING IN YOUR LONG TERM STUDY OF THE HEALTH RISKS OF GE FOODS. YOU HAVE LIED. MONSANTO HAS LIED. WE CAN NO LONGER TRUST YOU TO PROTECT OUR INTERESTS. AT LEAST GIVE US THE RIGHT TO CHOOSE WHAT WE FEED OUR LOVED ONES.
